PEONY

An organic cascading design, the Peony series is constructed of a freeform structure with figurative blossoms in a dazzling display of crystal. Two hand blown dishes, cloudy at their center, encase an array of crystal that span radially across a reveal in the glasses. The energy efficient LED lights illuminate the bulbous flower forms, reflecting off the crystals creating an iridescent lighting effect.

LILLET

Stunning LED arrangements recreate the splendor of Art Nouveau. The biophilic forms that sparkle in this distinctive structure are made of feather-like handcrafted steel and crystal. These crystal sculptures are evenly lit by a discrete strip of LED light that follows the sculpture's undulating shape, which also adds additional ambient light below. Available in various pendant configurations and a coordinating sconce and finished in Polished Nickel.

ROLLAND

Like the subtle sweep of a painter's brush, the Rolland pulsates with durable elegance mimicking the rhythmic swell of a wave. Custom K9 Crystal's suspend brilliantly from the undulating stainless steel LED ring that is upheld by a breathtaking crystal infused canopy. The attentiveness to detail combined with dimmable features cultivate elegance that can only be accomplished by dynamism of shape.

LARIAT

An entirely modern interpretation on the classic multi-tiered chandelier, Lariat features dramatically radiating arms in opposing directions. Using energy efficient LED technology, this artfully sculpted chandelier exemplifies intelligent luxury. Rings of LED illuminate frame hand crafted metalwork that is elegantly braided and gold leafed. The contrast of the Gold Leaf with a dark Bronze Gilt finish further enhances this contemporary piece. Thoughtful in design, the Lariat's swiveling canopy, adjustable arms and rotating heads, offers personal configuration with simple adjustments.

CÉSAR GIRALDO

GUSTO CAPSULE COLLECTION

Futuristic and full of Gusto, the capsule collection designed by Cesar Giraldo features artisanal hand-blown glass elements colored in cloud-like white infused glass or gradients of smoked grey and warm amber tones. The glasses' hand-crafted dimples refract dedicated LED lighting that highlights an undulating silhouette throughout the fixture. Diffused evenly across a thin tube of white acrylic encased within a larger vacuum of clear glass, the airy compositions appear to be floating while amply filling spaces.

Configurations include both horizontal and linear pendants, ceiling mounts, wall sconces and portable lamps sized for multiple applications. Available in metal accents finished in Gunmetal or Gold.

NINA | MAGON™

Globally renowned for creating spectacular spaces, Nina Magon, founder and principal of Contour Interior Design, is a multifaceted interior designer, delivering luxurious residential, commercial, and hospitality projects, inclusive of a curated collection of lifestyle product designs. Known for her edgy and bold aesthetic, she infuses each design with her signature style by using bold elements, color, and timeless modernity. Nina creates uniquely luxurious spaces and pieces, which excite the senses and are inspired by worldly cultures, to deliver excellence to her discerning clientele. In addition to her numerous design awards and recognition, Nina has been featured in distinguished publications including Architectural Digest, Elle Décor, Interior Design Magazine, Hospitality Design Magazine, Luxe Magazine, The Robb Report, Wall Street Journal and many more.

MEGALITH

A monument to the beauty of stone, the Megalith collection is constructed using a robust iron stem that branches off to support various panel options. These various elliptical panels are back lit with globes of white cased glass. Choose from stone panels sets including Spanish Alabaster, a pleasantly pink Rose Jade, White Onyx or a breathtaking Striae Arya with dramatic veining and dark grey color tone. The enduring appeal of the stone's character boosts the luxurious nature of this design. The framework is available in Gunmetal, Brushed Bronze or Heritage Brass and made to order configurations for quick modifications. For a more modern, futuristic approach to the design, the Megalith collection is also offered in a retro dichroic glass option.

LOCKET

The alluring visual effect of a milky cloud marble glass provides elegant luminosity. Backlit with evenly diffused LED lighting the fixtures resonate like a vibrant musical note. The fixture is elongated with a vertical metal spike finished in Natural Aged Brass that hugs the glass' shape as it extends in both directions. These elements end in an angle-cut edge which adds visual contrast not only in color but in feeling. The sharpness of a clasp to the softer orb of the marbling white glass. An embodiment of lighting as a jewel, the Locket evokes both the opulence and sentimentality of designer accessories.

CONTOUR

Gentle curves descend from the ceiling and pop with spheres of satin white glass shades. Strikingly modern, yet elegantly timeless the Contour series exemplifies Nina Magon's design aesthetic using curved silhouettes and bold applications of color. Offered in a variety of rich metallic finishes including Brushed Bronze, Heritage Brass, and Polished Chrome as well as made-to-order powder coat finishes, this collection provides the flexibility to match more spaces. Choose either warm 3000k or bright white 4000k LED lamps included and complete this energy-efficient solution that'll add visual interest to your space that can last generations.

ALINA

Seemingly limber arms in French Gold are dotted with glowing white glass spheres illuminated by dedicated LED light sources. As if 14K Gold bangles with pearl accents are transformed into a lighting fixture that whimsically glows as they float from thin stems, the Alina Collection manifests the concept that lighting is the jewelry of the room.

STITCHED

Expertly fabricated metalwork constructed to support artisan craft leather-work in Dark Brown tones. Configured to illuminate orbs of light supported at various positions, the white glass spheres cast ambient light from the included LED lamps diffused within. The hand applied Brushed Bronze finish compliments the luxurious, genuine Dark Brown leather creating a warm soft modern lighting product. Conspicuously joined together around the frame's center, the leather features eye-catching saddle stitching. An exercise in master craftsmanship, the Stitched Collection presents a playful, yet handsomely casual lighting collection that agrees with both modern and transitional aesthetics.

DREAMER

Drawing inspiration from her acclaimed "Dreamcloud" experiential design at Art Basel Miami, Nina Magon reinterprets her otherworldly installation for use in the home or hospitality project. The exaggerated curve, definitive of Magon's lighting design, suspends iridescent bubble-like glass forms that appear to float across channels of LED illumination. Available in Heritage Brass and Gunmetal finishes, this Dreamer pairs perfectly with coordinating finishes in the Nina Magon lighting collection.

ARYA

Double stacked hand-blown glass domes plateau to a flattened plane resting marvelously on a cylindrical tube striped with dedicated LED light reveals. Glass options of Mirror Smoked or an opulent Emerald Green pair with a second clear glass shade. They appear to float as they suspend on the cylinders finished in fine French Gold or Polished Black Nickel. At the end of the cylinder an additional downlight provides functional lighting below.

TRANCE

Minimalist in design but loud in its statement, oval frames in Natural Aged Brass illuminate floating dichroic glass panels. Subtle iridescent hues become more vivid as the panels layer adding a colorful element to the design. Intentionally designed with various dimensions for the panels, they can be fixed together in polygonal configurations, or simply free-float on the thin low voltage cables that suspend each frame.

MEDALLION

Classic diamond facets were the concept behind the facets of the crystal shades in round or baguette rectangular frames. Just like a Medallion, they can be installed on the wall with ADA compliant extensions or onto your ceiling adding opulence to your space. The indirect LED light source is sealed within an irregularly faceted diffuser and a polished back plate creates a dazzling reflective display. Frames are finished in burnished Gold with a neutral, warm 3000k color temperature.

STRATUM

Clear slabs of glass a half inch thick are pressed together between two discs finished in Natural Aged Brass. As the glass approaches the center, each slab of glass increases in dimension creating a gradation of light revealing the glasses' shape and character. Dedicated LED lighting emits from concealed polycarbonate tubes evenly distributing the light source in all directions. These LED tubes terminate at brass discs supported by Dark Brown leather straps that both suspend the pendants and conceal the electrical wiring stitched within them. Elevate your lighting to the next Stratum integrating bygone modern design elements with innovative technologies and expert craftsmanship.

SM2431

SATELLITE Accent Lamp

A bold dish of French Gold reflects the glow of Satin White Opal White glass shades that softly diffuse LED lamps provided. The globe shade rests on a solid mass of exquisitely veined Black marble. The combination offers a delightful combination of elements in a restrained, yet sophisticated accent lamp.

SM2431 • Accent Light

(1) 4W LED G9 PCB (included)
4.75"W x 16"H x 9.5"L
3000K, CRI 90+, 350 lm

Available in French Gold with Black Marble (FGBK)

MAT SANDERS

métissage

MASCULINE NOUN

le métissage de la société; the cultural mix of society

With reference to the brasseries of Paris, the gentlemen clubs of English high society, and the design concepts of Scandinavian minimalism and Mid Century Italian masters, Mat Sanders presents a refreshingly retro vision of lighting products. Defined by his California Casual aesthetic, Mat reveals his cultivated taste of vintage products updated by an expert minimalist restraint. The result is the following collection created in collaboration with Studio M demonstrating a vision of lighting that attractively mixes modern playful forms with warm color tones and materials that suits traditional and modern environments.

CHAPEAU

Cheerful in design, the Chapeau nods its domed cap at the brasseries of Paris with updates inspired by Dutch modern trends. Contemporary Satin Brass metalwork contrasts with wrapped leather accents that terminate at a translucent glass dome and globe glass shade. The globe of opal Satin White glass softly diffuses LED lamps provided and accentuates the round forms of the outer Clear shade. The products are secured with knurled locking mechanisms that add industrial flair representative of Mat Sanders. Combining contrasting materials with pop appeal, the Chapeau collection offers large scale wall sconces that playfully curve out from the wall and practical pendants with matching accents.

CHIPS

Thinly curved panels of perforated metal shades are illuminated by LED globes of Satin White glass at various positions along the span of the suspended chip-like sculptures. The expansiveness of the panels are voluminous, yet seemingly airy in their perforated translucence. Influenced by pop art and sculpture, the Chips are functional lighting products comically named to express some of the personality in Mat Sanders' designs. The collection includes large scale pendants vertically or horizontally suspended, smaller scaled single pendants, and wall sconces. The shade panels are available in Natural Aged Brass and 'Mat' White, but they can also be manufactured in RAL finishes chosen by Mat Sanders like a more dramatic hues of Dark Slate and 'Mat Black'. Make it monochromatic or combine the finishes to create an illuminated art piece that matches your space.

DOMAIN

A truncated sphere open at its top and bottom encircles a globe of Opal White glass shades. The outer glass shade is suspended by a strapping structure in complimentary finishes. Select from a combination of finishes that include acid etched Satin White glass with Natural Aged Brass, crystal Clear glass with polished Black Nickel, or a striking Smoke striped Clear glass with matte Gunmetal. On the larger pendants the yoke uses leather stitched detail work adding a new discovery that coordinates with the collection. Complimentary smaller scale pendants and sconces round out this collection presenting applications for multiple applications. The attention to detail and fascinating combination of elements is influenced by the various cultural and period pieces within Mat Sanders' design domain. Synonymous with his casual yet sophisticated aesthetic, the collection includes a variety of lighting types that coordinate with various locations, applications, and finishes.

INCOGNITO

Ominous glows of LED illuminated glass spheres appear behind glass shades that are opaque when not lit. These deformed sphere shapes of glass are purposely oblong and available in either Mirror plated glass or etched Satin White. They are paired with metalwork in Gunmetal or Natural Aged Brass and include lighting that can be mounted as wall sconces or ceiling lights with additional pendant options that feature a filigree cap perforated with retro dot cut-outs.

CAVALIER

Expertly stitched leather shades are bound by brass finials in a folded shape that is radially asymmetric. These black leather shades obstruct LED lamping to create ambient indirect lighting and pair well with the Naturally Aged Brass frames that feature a smooth, chestnut leather wrap detail. The shades on the expansive two-light pendant are adjustable to provide function on its oversized width perfectly chic over a dining table, bar, or kitchen island. The wall sconce option is designed for both portable pin-up mounting or hardwired applications and single pendants are available in two sizes. The Cavalier lighting collection exercises Mat Sanders' talent for understated elegance, where the lighting products stand out in their unassuming details.

French Gold (FG)
Polished Chrome (PC)

VESTA

Symbolic of the hearth and home, the Vesta collection draws inspiration from the Roman goddess represented by the fire of her temple. Large diameters of shallow, inverted vessels disperse indirect light upward scattering softer, ambient light toward the ceiling. Purposeful in design and its applications, a **Dim-to-Warm feature** is integrated into the LED light engine so that as you set the lighting dimmer past , the light emitted becomes warmer and more relaxing. Highly reflective, polished metal finishes of rich French Gold or cool Polished Chrome elevate the minimalistic forms with vibrancy, while dramatic two-tone options combining “Mat” White or “Mat” Black shades allow for more neutral compositions. Masterfully understated, Mat Sanders manages to create product and spaces that are both effortlessly sophisticated and pleasantly welcoming.

PRISMATIC

Somewhat recessed within a classic Mid-Century metal shade, a secondary thick glass shade pressed with prismatic patterns casts an iridescent light. The dedicated LED light source is concealed to reduce glare while providing ample lighting. Choose from large, thin-profiled cymbals of Brass with Dark Brown leather accents or Midnight Black metalwork with Black pebbled leather wraps stitched onto the frame. The Prismatic series of pendants, low profile surface mounts, and portable lamps incorporate advanced LED technology. A convenient touch dimmer on the base of the portable lamps features 3-step dimming allowing you to control the light settings for ambient or functional uses.

Available in Natural Aged Brass (CRNAB) Black (CRBK)

CRUX

Crossing planes of ribbed glass panels are asymmetrically arranged along a rod, framed in thin Matte Black iron. The tubular bulbs suspended from various heights are obscured by the glass texture, creating a shimmering show of ambient illumination. The simple circular and arcing shapes are stitched together in an interesting industrial glass texture structure that echoes the internal light patterns. The design, like bound glass and orb lighting pendants, manages to convey retro vibes in a modern, daring, and transitional form.

Available in Clear Ribbed/ Black (CRBK)

The background features a dark, solid area on the left, transitioning into a large, light-colored circle on the right. This circle is filled with a fine, repeating grid pattern. A dark, horizontal bar is positioned across the top left, partially overlapping the circle. A small, dark, circular dot is located on the grid pattern, just below the bar.
