

STUDIO•M

SIGNATURE COLLECTION

STUDIO • M

ABOUT US

STUDIO•M strives to create unique lighting that breathes life into classical forms through innovative design and master craftsmanship. These works respond to a conscious cultural shift where architecture, fashion, entertainment, and design interrelate. These distinctive designer-series lighting products were made with the support of Maxim Group Companies, a company that has defined lifestyle lighting for half a century.

Using modern innovation to elevate the design, STUDIO•M collections deliver unparalleled luxury lighting. The potential of materials like glass, brass, and fabric are transformed by STUDIO•M's artistry. Signature finishes are hand-applied; metalwork is sculpted into elegant forms; and shades constructed in textiles according to our exact specifications. The purposeful design is only complemented by the ability of the fixtures to perform, and energy efficiency is incorporated where appropriate. STUDIO•M offers the architect and designer unique solutions in lighting to enhance the architectural setting.

WHOLESALE & CONTRACT INQUIRES

Members of our dedicated team are available for consultation to assist you on your next project. For inquiries please visit our website at studiomlighting.com

TRADE SERVICES

We have a specialized team for our trade and commercial customers, whether you are looking to stock Studio•M products in your store or specify a customized product for a project we are happy to assist.

CONCIERGE CARE & ONLINE SERVICES

A dedicated concierge care agent will assist you and your team on all inquiries, customizations, logistics, and updates.

Additionally, a self-directed online ordering and status update portal is provided once a trade relationship with Studio•M is established.
