Please consult your electrician for hanging fixture and wiring.

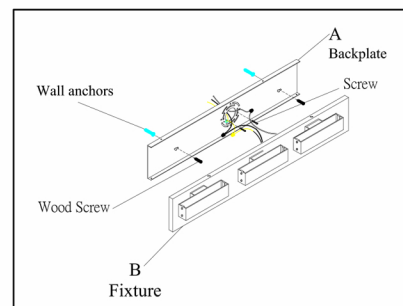

IMPORTANT: Turn off the power at the main fuse or circuit breaker box before starting installation

Locate all hardware & components before discarding packaging

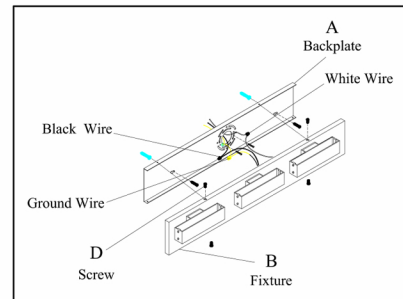

1.)

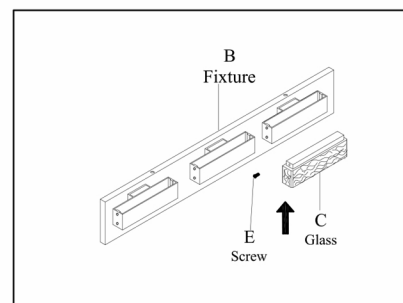

Step.1: Remove backplate (A) from fixture (B) and install to electrical box. Mark where anchors meet the wall. Drill holes using 3/16" ± drill bit where marked. Install backplate (A) to outlet box and attach anchors to secure bracket at ends.

2.)

Step.2: Wire fixture to wires in outlet box. Copper wire is for Ground. Attach fixture (B) to the backplate (A) using screws (D) provided.

3.)

Step.3: Attach glass (C) to fixture (B) using screws (E).

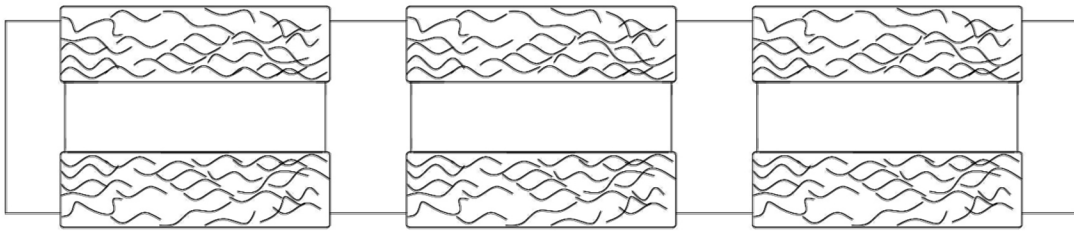

Cleaning & Care:

Clean with soft cloth and a mild detergent.
Do not use abrasive cleaner.

This fixture is designed to dim with an Electronic Low Voltage dimmer. Dimming levels will vary by dimmer.

Below is a List of Recommended Dimmers:

- Lutron MACL-153M
- Leviton IPL06-10Z

Due to inrush current, wattage should not exceed 150 Watts of product for a 600 Watt dimmer.
